FALL BARGAINS IN IRISES

Some Irises are appreciated for the beauty of their individual bloom, while others show best when grouped in mass plantings or used in border work. The Iris, with its graceful, healthy foliage, adds beauty to any border, and at blooming time the different groups in the garden-layout revel in Nature's coloring, and readily become the pride of an entire neighborhood. There is no end of pleasure in blending the different groups into a harmonious color scheme.

The work of moving my Irises to a new location finds me with a surplus of many varieties which I can offer at prices which will provide a generous group, or border planting at a very moderate investment. These Irises are offered for immediate delivery. Each variety will be plainly labeled and full planting instructions will accompany each shipment. My usual terms will apply. Cash with order, transportation charges to be paid by purchaser. No order accepted for less than \$1.00.

If my stock on any variety is oversold so that I cannot furnish the entire number ordered, I will send the roots I can furnish, and will bill them at the lowest price quoted.

Later this season, and again next spring I will offer groups of Irises for mass and border planting. If interested, fill out the form on the last page and return to me, and these special lists will be mailed to you.

SEPTEMBER PLANTING OF IRISES:

"Bearded flag Irises may be planted at any time from July to March, but we urge all growers to take delivery of the plants they buy at the end of August, or during September and October, as we are convinced that this is the best season for transplanting."

—Orpington Nurseries, England.

Note the exceptional values in this group of Irises. I have previously listed them at prices ranging from \$2.00 to 50c each. To foster interest in group planting I am offering all the varieties in this list at the following special prices:

5 rhizomes at 15c each
10 rhizomes at 12c each
